Newsletter Corporate - July 2017

Dear partners,

Before you head off on those well-deserved summer holidays, please find below the latest news from your health cluster!

Contents:

- Opening of the "Call 22" for R&D and training projects
- TreatBest and Improve: two R&D projects launched in June
- New training modules in regulatory affairs coming soon
- BioWin members on the international stage
- Upcoming key international events!
- BioWin in the press
- The health cluster welcomes 15 new members

The BioWin team would like to take this opportunity to wish you a relaxing summer holiday, with plenty of sunshine!

Launch of the call 22

Take advantage of this new opportunity to fund collaborative and innovative R&D and training projects.

Letters of intent must be submitted before **21 August 2017**.

- [Letter of intent \(R&D projects\)](#)
- [Letter of intent \(training projects\)](#)

Only available in French

Two R&D projects in the starting blocks

Two BioWin projects were launched a few weeks ago. The "TreatBest" project, led by Diagenode, aims to bring to market an in vitro diagnostic test in the field of personalised breast cancer treatment, while the "Improve" project, led by Promethera Biosciences, is focused on the preclinical validation of a new cell therapy product for treating chronic fibroinflammatory liver diseases.
